MEMORANDUM FOR: NSA/TCO

ATTENTION:

25X1A

THROUGH:

SUBJECT:

Aircraft and Facilities at Bir Jifiafa Airfield, Egypt

REFERENCES:

- A. Requirement No. [redacted] NPIC Project No. [redacted]
 N 872-64
- B. PAG Memorandum No. [redacted] dated 21 Sept. 1964

25

25X

1. In response to the reference requirement NPIC conducted a detailed examination of all available photographic coverage of Bir Jifiafa Airfield, Egypt (3024N 3308E) to determine the presence of aircraft on the field, and to provide a description of the support facilities. The airfield was covered by the following [redacted] Missions [redacted]

25X1D

2. No aircraft were observed at the airfield on any of the available missions. The runway is 8,200' x 160', oriented NNW/SSE, asphalt surfaced, and serviceable. There is a parallel taxiway 100 feet wide extending the length of the runway, a parking apron and 6 hardstands. Two hangars were observed at the field, but no billeting or other support facilities were present. The airfield is served by an all-weather road.

25X1

3. Refer to reference B (above) forwarded to your office on 21 Sept. 1964 for details of the electronics facilities at this airfield.
